

Setting up your profile is straighforward. Within minutes you'll be able to sell your music to your fans. This guide will take you step by step through the process.

You must have written permission or full ownership and copyright of any item that you put on sale on Jam24

Step 1

When you get to the front page of the Jam24MusicStore you will see a button "Set up profile"

Click on it.

Step 2

Put in band name or artist name. This will automatically give you a URL to your shop site on Jam24.

Now select a Band Profile Image and a banner image. If you don't have one, get one done as professionally as you can afford. We don't have limits on AI images, but we do with decency.

Click "next".
